

Fixed-Knot Fence

1.25 m

USES

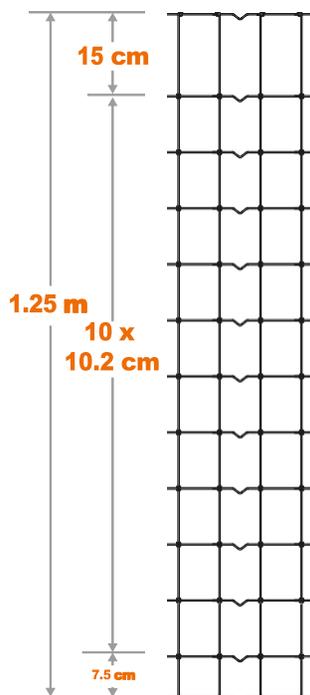

- Perimeters, interior fences, cattle, sheep, goats, horses, fences.

CHARACTERISTICS

- Independent knot and rectangular frames that provide structure to the fence
- Low carbon wire
- Class I coating

ADVANTAGES

- It prevents animals from escaping as it has an independent knot that does not come undone and prevents the wires from opening
- It prevents wounds to the cattle's skin as it has no sharp edges at the ends of the knot.

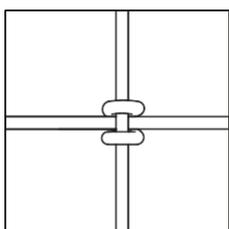

FIXED-KNOT FENCE 1.25 M

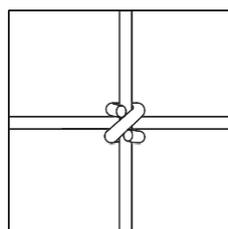

Code	Height	Opening	Design	Length	# of longitudinal wires
	m	cm	cm	m
