

Galvanized Wire

Better adherence of the zinc layer, uniform diameter along the entire length of the roll. Continuous, uncut rolls.

USES

- Electrical installations
- Gardening
- Provisional repairs
- Mesh ties
- Clotheslines
- Fixing suspended ceilings

CHARACTERISTICS

- Galvanized finish
- Rolls labeled with gauge
- Continuous rolls (without cuts)

ADVANTAGES

- Uniformly wound roll for better presentation and handling during unwinding
- The unit of sale is in rolls, which allows for better inventory control

GALVANIZED WIRE
