

Razor Wire

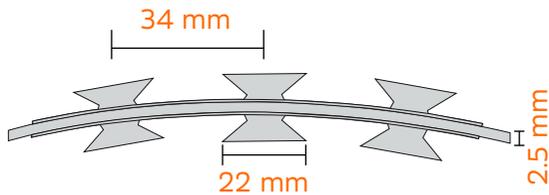

Spiral-shaped galvanized metallic strip with a high-tensile steel wire core that has very sharp razor barbs that serves as complementary protection for any type of fence, walls, and many vulnerable areas where extreme protection is needed.

CBT - 60

CBT - 65

BTO - 22

USES

- Perimeter protection for industrial and residential use
- Public safety and properties with poor lighting
- Military or penitentiary barriers

CHARACTERISTICS

- Spiral-shaped metallic strip
- GALVANIZED CLASS I
- Each roll covers 8 linear meters
- High-tensile wire

ADVANTAGES

- High durability
- Effective deterrence power
- Excellent protection barrier
- Easy installation

RAZOR WIRE

Code	Design	Diameter	Security Level	Length
		cm in		m
