

Urban Fixed-Knot Fence

Fence made with galvanized wires with greater resistance and durability than any other perimeter fence, with fixed knots and independent tension in each horizontal wire.

URBAN FIXED KNOT FENCE

USES

- Warehouses
- Industrial parks
- Airports

CHARACTERISTICS

- High tensile wires
- Uniform squares
- Tension curve that absorbs impacts

ADVANTAGES

- More economical vs. chain link fencing
- No warping
- Harder for intruders to cut
- Stronger and safer
- Easy to install

URBAN FIXED KNOT FENCE

Code	Height	Opening	Design	Length	# of longitudinal wires	Coating
	m	cm	inch	m		Galvanized
16590	1.51	7.62 X 8.89	3" x 3.5"	50	18	Commercial Grade
11206	1.98	7.62 X 15.24	3" x 6"	50	14	Commercial Grade
11218	1.98	15.24 X 15.24	6" x 6"	50	14	Commercial Grade
11474	2.04	7.62 X 8.89	3" x 3.5"	50	24	Commercial Grade
11217	2.13	7.62 x 8.89	3" x 3.5"	50	25	Commercial Grade

MESH SPECIFICATIONS

Upper/lower selvage wire gauge (edge wire)	12
Inner wire gauge (linear and cross wire)	12.5
Tensile strength longitudinal wires	185 - 210 ksi
Tensile strength cross wires	130 - 145 ksi

SALINE CHAMBER TEST

Galvanized Coating	100 hrs. (up to 5% rust appearance)
--------------------	-------------------------------------

MANUFACTURING STANDARDS ASTM 116
