Gran Vaquero Barbed Wire

High carbon barbed wires twisted together, which have a series of barbs placed on the wires every 5 inches. The most break-resistant wire on the market.

USES

- Perimeter fences of all kinds
- Security complement for fences made of mesh and concrete walls

CHARACTERISTICS

- Spacing between barbs 5 in.
- Ergonomic handle
- High-strength wires

ADVANTAGES

- Easy installation
- Saving on posts from wider spacing
- Excellent adaptability to different terrains
- Prestressed wires
