

# Box Nails

It is a nail used in the construction of structures or wood fixings that require fastening.

## USES

- Construction
- Carpentry
- Light wooden structures

## CHARACTERISTICS

- Thin tip
- Thin diameter

## ADVANTAGES

- Less likely to splinter wood during nailing
- Fine finish and easy nailing

Code 50 lb per box	Length		Gauge	Weight
	inch	mm		
2814	1 1/2	38.1	14.5	22.7
